SŽDC Published the Railway Timetable 2019 Draft on Its Website

Správa železniční dopravní cesty (SŽDC) published on its website the Railway Timetable 2019 Draft which will be valid as of 9 December 2018 to 14 December 2019. You can find it at the address www.szdc.cz. This document was prepared pursuant to Act No 266/1994 Coll. as amended for lines where SŽDC acts as infrastructure capacity allocator.

SŽDC prepared the timetable draft based on individual carriers' orders so that it is pointless to submit any incentives to it or ask for settlement of these. Remarks to this document have to be submitted to individual carriers; more specifically to the Ministry of Transport as far as long-distance connections are concerned and to the respective regions as far as regional transport trains are concerned. Contacts can be found e.g. on these institutions' public websites. Based i.a. on incentives received, these entities will discuss specific modifications of the proposed timetable with SŽDC.
