SŽDC Student Cup Premiere in Ostrava

On Thursday 22 June, the playground of the High School of Technology and Transport in Ostrava-Vítkovice will be for the first time a setting for the sports and educational SŽDC project called Student Cup. Approximately 300 pupils from 7th and 8th grades of primary schools from Ostrava and its neighbourhood will meet there. Both knowledge tests and interesting sports competitions will be prepared for them.

Student Cup has been organised by Správa železniční dopravní cesty since 2013. During this time, it has taken place also in Brno, Hradec Králové and Děčín. Through the project, the infrastructure manager tries to find future employees. By an interesting and entertaining form it presents not only individual technical professions at SŽDC but also fields of study of partner high schools in the region.

This day full of fun, competitions and games starts at 8:30 a.m. The announcing of winners awarding cups, medals and valuable prizes to the bests is expected between 12:00 p.m. and 1:00 p.m.
